

Form Summary

Please share your educational and career goals/aspirations and how you plan to move toward greatness:

For years I have had a real interest in Forensic Science. As a kid instead of watching Nickelodeon I would be watching NCIS or Law and Order SVU. To me, solving crimes is like solving a puzzle which is fascinating to me. To pursue this interest, I have decided to major in either Criminology or Forensic Science. A career in either field provides opportunities to work across several industries. I could be a forensic technician, crime scene investigator or digital forensic analysts, all helping to solve crimes. It would be even more ideal to have one of these careers with the FBI.

I also have great aspirations for acting. I remember as a kid falling in love with movies and completely losing myself in them. I have always wanted to experience what it would be like to be on the other side of that TV screen. So much so that I started taking acting and dancing classes as a hobby. For the past three years, I have been studying and training in acting and film. I have participated in a number of training workshops in Louisville, Indianapolis and Los Angeles, CA. Additionally, I have booked and filmed two professional commercials and performed in various theatre related productions with Faith Works Studios, Youth Performing Arts School, Louisville Ballet and Safiyyah Dance Company. Participating in the arts can be a great balancer while I pursue my undergraduate degree, helping to build mental focus and increase my self-awareness.
