

## Form Summary

Please share your educational and career goals/aspirations and how you plan to move toward greatness:

My goal to move toward greatness is mainly me following my dreams. I am lucky enough that there is a field of study under music because it's my dream to get involved with music so I can change the world with the sound I can bring. I want to pioneer a completely different sound bringing in a whole new sub-genre and hopefully I can expand to help multiple people with their life problems. The more I keep pursuing my dreams the closer I get to reaching my end goal. Everyday that I write and record music I find my general sound that can hook an audience, once I get a hold of that audience I can finally start to shift my sound and do an entirely different field.
