Form Summary

Please share your educational and career goals/aspirations and how you plan to move toward greatness:

A dream is something we see with closed eyes, but once opened, they become aspirations. More clearly visualizing and building toward that thing that was once a dream. For me that thing is not just my career or a type of car, but it is the drive to remain steadfast in my journey. I have noticed that I tend to lack consistency in my goals; not out of laziness but out of self and outside doubt. In pinpointing this, I revealed my ultimate plan, to indulge in it. Indulge in the research, indulge in the late nights, indulge in the one on one conferences with professors and advisors. Indulge in the effort to attain what was meant for me, success.

Now with my pre-existing issues tackled I began to utilize the resources that I'd given myself through applying and being accepted to my now home, Howard University. Being here has helped me define my end goal of my career journey, to be the CEO of a rural hospital or medical facility and bring quality healthcare to those who may not be able to afford it. To get there, I choose to enjoy the ride. Majoring in Healthcare Administration, I prioritize my academics and absorb all available knowledge while serving my community as a cheerleader and liaison and enjoying the experience of my HBCU. I am already enjoying where I stand while looking forward to where I am going. I know that I will succeed.
