## Form Summary

Community Service and/or Extra Curricular Activities (if any):

I am an alumna of Dutchtown High School in Hampton, GA (Class of 2022) and a former member of the Dutchtown Starz Varsity Dance Team, also known as the GHSA 2020 Hip Hop State Champions. I am also a former member of the National Honors Society where I have gathered over 30 community service hours this year through tutoring and helping out around my school. Another club I have participated in is the United Christians Association club at my school. I have a GPA of 3.90 on a 4.0 scale and I am an Honors and Dual Enrollment student. I have been involved in my local community by restoring their faith in humanity. As previously stated, I was a member of both National Honors Society and United Christians Association in high school and we participated in and led multiple drives and donation events. These events included coat drives, canned food drives, construction of care packages for the homeless, creating prayer cards for elementary school students, etc. I have also been a member of the Dutchtown Starz Dance Team of Dutchtown High School for 3 years and during those three years we have hosted multiple dance clinics to assist middle school and high school girls with their technique while boosting their confidence and assuring them that they are capable of learning and achieving anything. Not only have I participated in multiple acts of service, but I have also obtained important roles in my school such as Librarian Assistant and my Early Childhood Education Class Daycare Assistant. As a librarian assistant, I've helped teachers and students at my school print papers, laminate papers/posters, and pay for fines/other fees while also distributing fees, restocking books, checking books in and out, making posters for teachers, and cleaning the library. As a daycare assistant in my Early Childhood class, my peers and I worked on lesson plans for the children, and on the days they were at the daycare we carried out those lesson plans while working with them on their gross motor and fine motor skills.

## Form Summary

Please share your educational and career goals/aspirations and how you plan to move toward greatness:

In the future I plan to use my degree to help melanated people like myself because as you know the healthcare provided to African Americans is not top tier and this has just been accepted into society as a normal thing. This is no way to live and I know that this world is in need of dire change and I am willing to be the one to step up to the plate and change that day by day no matter how long it takes. I also would love to support the idea of improving the mental health of those in my community. Although I want to go to school for Nursing, mental health can be just as important as physical health in many scenarios. There are so many problems going on in this world regarding serious health issues and more than half of these issues are just brushed off if they are not seen as the most important. Yet I believe that everyone deserves a happy life free of stress and pain and I want to make that a reality, it is seriously time for a change. I plan to leave a good rep for myself through every patient I meet. I want to leave a legacy behind when I leave this place. I want my future patients to know me like that doctor that truly cared deeply for them when no one else did. I was called to stand out so that is just what I will do, I plan to do more than my job. I will make my career my passion and I will love and cherish it in every way possible.
