Form Summary

Please share your educational and career goals/aspirations and how you plan to move toward greatness:

As I move towards greatness, I aspire to become a civil engineer. My passion for engineering started early on when my family realized how my mind was geared towards mathematics and problem solving. Years later, while working on my Eagle project, I was able to apply the skills I have learned through the various programs I have participated in. These skills helped me to hone down what specific field of study I want to pursue. My current goal is to attend Howard University and earn a degree in civil engineering. After this I plan on giving back to my community through programs like Boy Scouts, Kappa League, and others where I am able to inspire young people.
