Please share your educational and career goals/aspirations and how you plan to move toward greatness:

I have a strong interest in the handling of funds for a fortune 500 company or financial institution and for this reason; I am working on obtaining my four-year university in Accounting degree. After graduation, my plan is to acquire a position with a financial institution which I can utilize and enhance my knowledge and skills in the industry. While working, I plan to pursue obtain my Certified Public Accountant degree. After about 7 -10 years, I plan to open my own accounting firm in the Central Florida area. My focus will be to serve the accounting needs of my clients, governmental agencies and local business. My lifetime goal is to create and introduce financial literacy program to students at a young age who live in lower-economic environments. I believe this is extremely important that financially literacy is taught for the economy to grow strong and for individuals to maintain a certain quality of life. I am excited to share my knowledge in order to help myself and my community move forward to greatness.
