Please list below the names and amounts of any grants or scholarships you have been awarded for the coming school year:

Name of Award:                      Amount:                      Granted/Pending:

Friends Educational Fund \$1,500 Granted  
Ball State Grant \$3,100 Granted

Please share your educational and career goals/aspirations and how you plan to move toward greatness:

Throughout the years I have taken a multitude of classes in and out of school that have helped me learn valuable life skills and also taught me the different potential paths I can take. The wide variety of options that have been presented to me have given me the ability to make a plan educationally and career wise that I want to achieve throughout my life. One of the main goals I plan to achieve is finding a career that is best suited for me while also finding ways to give back to my community. I have taken classes through the Center for Leadership Development. These classes and the ones at school expose you to different career fields and allow you to take multiple job surveys to help you figure out your interests and strengths. I learned things like what to say in interviews, how to maintain a job, and how to pick a career based on a combination of whether you can make a living doing that particular job and if that job suits your interest (not just picking strictly based on money). I plan to pursue a degree in the business field, specifically digital marketing and minor in organizational communication. Throughout college I plan to be vigilant and open to other potential career fields that might interest me and seek out internships that will allow me to obtain business experience. I believe that I can achieve the task of completing my degree in 4 years because I am ambitious, focused, and task oriented. I know that acquiring scholarship money is a huge benefit and is something I would not take for granted. I will not let college distractions stall my learning. I also plan to get a job not only to help pay for college but also to help me get work experience. Upon obtaining my degree I will look for a job that will allow me to have an enjoyable and sustainable career while starting my own side business. At my high school I took an entrepreneurship class where each team would think of a venture idea and map out how it would look. Through videos about how people launched their businesses and through discussions, I learned many tips on how to create and grow a business. I am looking forward to owning my own profitable side business in the future.
